Subject: First of Two Emails - JULY 12, 2012 Production Area Authorization documents

Dear Bill,

This email contains an introduction memo that summarizes the contents of this email and the one following. For simplicity this email contains documents and x-sections that are included in the Production Area Authorization application which was submitted to TCEQ in August, 2008. The second email will contain information contained within the Mine Permit Application that references and answers questions posed by EPA. We have made the documents concise and have highlighted the areas of interest for quick review.

The information pertaining to the graben will be forwarded tomorrow afternoon..

Thank-you

**Harry L. Anthony, IV PE | Chief Operating Officer - Director**
